SUMMARY

Product and UI/UX Designer focused on building intuitive, user-centered digital experiences that solve real problems. Experienced in designing end-to-end product flows, wireframes, and interactive prototypes using Figma. Strong foundation in design thinking, usability principles, visual hierarchy, and responsive design. Comfortable collaborating with cross-functional teams and translating ideas into functional, visually consistent interfaces.

WORK EXPERIENCE

Product Designer (Intern)

Brandcery, Lagos, Nigeria (Remote) Aug 2025 - January 2026

- Designed user interfaces and interactive prototypes for client and internal digital products, supporting both web and mobile experiences
- Translated product requirements into clear user flows, wireframes, and high-fidelity UI screens using Figma
- Collaborated with designers and stakeholders to iterate on designs and deliver usable, visually coherent solutions within deadlines

PROJECT EXPERIENCE

Campus Loop — Smart Campus App *(Ongoing)*

- Designed an end-to-end mobile experience to help students manage academic schedules and stay socially connected
- Defined core features through user flow mapping and early ideation, prioritizing clarity and ease of use
- Focused on usability, accessibility, and consistency across screens

***View project*: Figma**

Quick Bite — Food Ordering App *(Ongoing)*

- Designed user flows for meal discovery, ordering, and checkout, reducing friction in the ordering process
- Applied usability principles to improve clarity of navigation and checkout steps
- Designed a clean, intuitive interface aligned with common food delivery user behaviours.

***View project*: Figma**

PillTime — Medication Adherence App (Ongoing)

- Designing the full end-to-end mobile user experience for a health compliance application focused on chronic illness patients.
- Architected and prototyped a comprehensive authentication system, including multi-screen onboarding, email-based secure registration (Sign Up), and a 6-digit One-Time Password (OTP) verification flow to ensure user data security.
- Applying user-centric design principles to a health context, ensuring usability for a target demographic of 20–65 by optimizing interface elements for clarity.
- Conducting systems analysis for V1.0 logic, defining user flows for upcoming prescription-filling and personalized reminder notification systems.

***View project*: Figma**

Responsive Landing Page Design

- Designed a conversion-focused, fully responsive landing page system across desktop, tablet, and mobile
- Applied strong visual hierarchy to guide user attention and improve content scannability

***View project*: Figma**

EDUCATION

Bachelor of Science (BSc) – Software Engineering
Miva Open University, Nigeria

2025 – Present

Ordinary National Diploma (OND) – Computer Science (Distinction**)**
Federal School of Statistics, Ibadan

CERTIFICATIONS & TRAINING

- **Product Design Certificate** — CareerEx (in collaboration with Access Bank), 2025
- **Product Design Training (Participant)** — TechCrush, 2024

SKILLS AND TOOLS

Skills: UI/UX & Product Design, Wireframing, User Research, Design Thinking, Visual Hierarchy, Responsive Design,
Tools: Figma, FigJam, Miro, Canva
